

Risk in Business

This book details the reasons why companies fail, and how a successful company manages the impact of people and events to achieve the most effective business performance. Through the techniques suggested, growth and success, and a happy working environment, can be achieved. Companies fail for one of two reasons: Firstly, the impact of people, or secondly, the impact of events. It can often be a combination of the two. The author is British and has worked as a solicitor and key executive in the management of various globally renowned corporations for the last thirty years. He has successfully negotiated complex deals in over a hundred countries worldwide, including some of the worlds largest energy deals.
