

## Leadership Unleashed

Jessie Upp, M.S., believes that a whole new range of possibilities and actions become available when people create new ways of relating to ideas, people, actions and the Self. This is accomplished by playing with ones attention. Ms. Upp created Leadership Unleashed as a thought-provoking workbook that sets the stage for playing with the imagination so that it is possible to become uninhibited, unlimited and unleashed in any moment. Designed to be opened at any page, this book includes 100 short observations that challenges ones state of mind such as The only sources of an anxious mind come from a projected loss in the past or future. Readers are invited to consider the observations validity, journal their interpretations and complete epigrams with illustrations. This book is meant to decrease unnecessary anxiety so leaders can effectively unleash potential in their workplace, home and community. On purchasing the book, readers are invited to share/access interpretations on [www.JessieUpp.com](http://www.JessieUpp.com).
