

Boomernomics: The Future of Your Money in the Upcoming Generational Warfare

Economists and financial wizards William Sterling and Stephen Waite take an in depth look at how Americas baby boomers have transformed the nations--and the worlds--economy, and how that transformation must inevitably--and radically--alter its course as the boomers age. The authors show listeners that there are strategies they can use, both as private individuals and collectively as a nation, to stay ahead of the all-important demographics curve and prosper during the age wave. Unabridged. Available now.
