

The Epistles of Jacob Boehme: Collections ONE and TWO

The 35 epistles of Jacob Boehme, translated by John Ellistone in 1649, have run through countless editions over the centuries. But this is the first edition that adds the 20 lost epistles, translated in 1661 by John Sparrow, published once in *The Remainder of Books* by Jacob Behmen, 1662, then forgotten for 350 years. The Epistles are an excellent starting point for those new to JB, and the initiated will find valuable exegesis of his books and a wealth of autobiographical detail.
