## Inside Commercial Constructions MVPs: 7 reasons why they get promoted faster, make more money, and enjoy a seemingly unfair advantage over everybody else.

This is a book about the MVPs in the commercial construction industry. Not the most valuable companies, the most valuable people. Its not about names, because names are distracting. Its about how the MVPs think, what they focus on, and, most importantly, what they do—along with some of what they talk about behind closed doors and a couple of the ingredients in their secret sauce. Find out why the MVPs enjoy a seemingly unfair advantage over everybody else, through a provocative and empowering set of insights gleaned from exceptional construction executives who are looking back at their competitors in the rear view mirror. In short, this book contains seven ways to fast track your career and dramatically increase your chances of success at the top.
