

The Beautiful Stories of the Great Seaport (Book One)

This book as one in a series is highly recommended for recreational reading. It will serve effectively as a great text for self-learners, and particularly for teachers and instructors of both k-12 and higher education. It is equally excellent for teaching (or learning) various components of Language Arts including: Reading, Creative writing, and Composition, Vocabulary and Comprehension. Each of the segmented short stories is followed by no less than ten comprehension questions.

These comprehension questions are well designed {some segments merged for easy cross-referencing and compatible workability} not only to gauge the readers level of understanding of the text, but also to further activate critical thinking, interactive deliberations on the various issues raised in the text, as well as creative writing, comprehension answers, accurate and precise summaries and short essays.

The Short Stories of The Great Seaport which specifically embodies a collection of all the stories and activities of the series, also incorporates the various interactive projects briefly explored in the selective series of the short stories. The suggested projects are carved to assist the interested reader further, in learning to internalize, demonstrate and practically apply some of the key lessons of the stories. The learners and instructors will find the nature of the suggested projects to be definitely engaging, encouraging the building of cooperative learning skills, and a positive step towards the achievement of related career objectives. The books will also serve as excellent resources for designing, planning and successfully executing productive field trips, particularly to a geographical landmark such as a Seaport.
