

Adams Story

You will be the chronicler, Adam Hubble tells his new wife Alia who fulfills her obligation some years later by writing Adams Story. Composed in alternating sections of verse and prose, this minutely observed account documents the ecstasy and obsession eroding the last two years of Adams life. Set largely in the United States and the Middle East during the first intifada at the end of the nineteen eighties, the story she tells is in effect, a symphony in two movements. An unfurling rhapsody moves through Adams prophetic sense of what he takes as his divinely inspired mission to make peace for the Palestinians, and his equally obsessive need to reconnect meaningfully with his own children, lost to him in an unhappy divorce. The personal, the political and prophetic stride past in loose verse and poetic prose while Adam is driven by a hopelessly quixotic and ultimately tragic conflict, the war between private conscience and public authority. Torn from the ordinary by his flight of the soul, Adam inevitably loses this fiercely contested battle on both the inner and outer planes of his reality.
