

## Immigrant Faiths: Transforming Religious Life in America

Recent immigration is changing American religion. No longer only a Protestant, Christian, or even Judeo-Christian nation, the United States is increasingly home to religious traditions from Asia, Africa, the Middle East, and Latin America. The history, spirit, and institutions of Protestantism often shape the beliefs and practices of new immigrants and their societies of faith. But immigrants are also creating their own unique religious communities within existing denominations or developing hybrid identities that combine strands of several faiths or traditions. These changes call for new thinking among both scholars of religion and scholars of migration. Immigrant Faiths responds to these changes with fresh thinking from new and established scholars from a variety of disciplines. Covering groups from across the U.S. and a range of religious traditions, Immigrant Faiths provides a needed overview to this expanding subfield. Sponsored by the Social Science Research Council.
