

Power In Motivating People

Power in Motivating People is a book used to encourage the already educated mind and is the fourth book of a five book series. Each of these books are on spiritual warfare and are what I classify as the Torah of the current day that we are a part of. Moses and Elijahs were the most influential people from the Bible - I feel the majority of the scripture were stemmed from their accomplishments. I would recommend this book to the educated introvert who is confused about the government and is wondering what happen to all their childhood memories and dreams for a better tomorrow. In addition, why are the evil people who everybody already knows prospering off of the righteous work(s)? This is for all who wish to rebuke the devil and his harlot, but havent found the proper formula. Use their own words and actions against them without leaving your character - much rather expose them for the wicked and foul spirits that they are. Most importantly, dont let what they do leak into what you have made without them and bond that are design to swallow up their palaces and destroy all of their strong holds. They do comprehend anything of the truth; thus, why do they have a life. If a man isnt following the commands of the Most High God; then, he should die as well as all those who feared and followed him. Read about it in scripture Ecclesiastes 12:13 & Ezekiel 18. The wickedness of the father is his own wickedness along with those who say they dont understand what is clearly understood because they have signed death contracts; in addition, the Sons righteousness is the his own righteousness. If you speak of violent; then, you shall eat in violence the rest of your days...However, if you speak in peace, you shall eat in peace and remain satisfied with the richest of food for the rest of your days. Dont allow an evil doer into your domain because they only have intentions of bringing you to the crust and

killing you for what the reason you helped them. Rebuke the devil consistently - dont feel sorry for him or his harlot and him and all of his fallen angels and fousl spirits will flee from you.

Motivating People at Work - The Power of Intrinsic Motivation These are the words of Dr. Drea Zigarmi, who found himself surprised by the strength of his own research on how a leaders power affects peoples motivational **McClelland (Needs for Affiliation, Power, and Achievement) Theory** Need for power is the desire to influence other individuals behaviour as per your wish.
