

Sacred Sites and Places of Power: A Meditation Handbook (Volume 1)

Sacred Sites and Places of Power, A Meditation Handbook is where art and healing come together. It takes you on meditative journeys to some of the most well known ancient sites in Britain and several in America. They were recognised by the ancients as places of spiritual power, where the earth's energies were strong. Our wish to be healed and belief in the sites gives not only potency to ourselves, but to all life. There are 40 sites described in this book. They are illustrated to show subtle energies seen by me at each site, in full page images. Also included are black and white drawings, history, lore and some of my poetry, alongside a meditation for each site. This book is the first in a series of several books to come.
