

Tajweed Quran Russian Translation & Transliteration (Russian Edition)

This copy of the Holy Quran clarifies words and meanings by providing detailed explanations in the margins of the text. In addition, the left pages of this Mus-haf contain a transliteration of the Arabic, phonetically spelling out words in Russian to help non-native speakers correctly pronounce the Quran. In this Mus-haf, letters related to Tajweed rules are distinguished within the text by the use of colors, indicating the various Tajweed rules. This technique helps simplify the rules of recitation for the reader in order to encourage and facilitate correct Quranic recitation.
