

The Spiritual Journey of George Washington

Connell illumines the rare but supremely brilliant leadership of the first and only unanimously elected President of the United States. George Washington, modest yet elegant, handsome, always projecting strength, graciousness and power, was universally considered the most humble man who ever lived. Born into modest circumstances, he wholeheartedly responded to whatever opportunities life offered him. Self-taught Washington was no stranger to sorrow, cold, hunger, persecution, violence, or terrorism, yet he was at home not only in the wilds of the frontier, but equally so in the finest salons of the times. His singular accomplishment was to face misfortune and conquer it. This greatest of all American heroes achieved startling victory by discipline, commitment, prayer, and the graced ability to bend his will under the yoke of what he called Kind Providence
