

Jua Kali Kenya: Change & Development in an Informal Economy, 1970-95 (Eastern African Studies (London, England).)

During the 1980s the term jua kali (Swahili for hot sun) came to refer to any body working in self-employment in Kenya. This text brings the informal sector alive through the photographs and life histories of jua kali people, and offers an analysis of what has been achieved by ordinary Kenyans.
