

Who Gets What?: Analysing Economic Inequality in Australia

This 2007 book addresses important contemporary concerns about social justice. It presents detailed economic evidence, but analyses it in a manner that is engaging and readily accessible to the non-specialist reader. Who Gets What? examines what has been happening to incomes and wealth in Australia, what causes increased economic inequality, and the possibility of creating a more egalitarian society. It looks at who is rich, which social groups are still in poverty, and the policies that could redistribute income and wealth more effectively.
